

OFFICE SUSTAINABILITY SIMPLIFIED

Removing used office furniture the right way

IMPROVING THE QUALITY OF WORKSPACE CHANGE

We facilitate a sustainable approach to your office decommission to keep your costs down.

Understanding Value

There is no longer a "one size fits all" model to decommissioning an office. It is becoming more unpredictable and expensive to send office waste to the landfill.

Utilizing the right network of resale partners will help you to find the value of your products and offset the costs of labor and logistics.

Environmental Impact

Our partners track the amount of furniture diverted from landfills, avoided CO2e emissions, and asset distributions so your team can see range of impact.

About us

Apex Facility Resources is an integrated services provider that specializes in making the complex simple for the modern workforce.

Why Apex?

- ✓ We have a team of subject matter experts committed to saving you time and money.
- ✓ We are committed to reducing the environmental footprint of office decommissions.
- ✓ We manage all aspects of the workspace cycle so you can maintain high-level oversight from any location on any device.
